

CITY OF MARCO ISLAND

BUSINESS HURRICANE RE-ENTRY PROCEDURES

The City of Marco Island **will no longer be issuing Business Hurricane Re-Entry Passes.**

The City of Marco Island will make every effort to provide immediate re-entry to the City after a storm event. If there is no significant damage as a result of a storm we do not anticipate any road closures and access will not be restricted. However, in the interest of public safety there may be reasons that access is restricted (i.e., flooding, road blockages, damage to bridges, power lines, etc.).

In the event re-entry is restricted, business owners will need to provide to each essential employee **a letter, dated during the current year, on company letterhead**, stating the employee's name and that they are essential to your business and you would like them to be able to return to the island after a hurricane. **If re-entry is restricted the employee will need to show the letter and photo identification upon returning to Marco Island.**
