

NOTICE TO CONTRACTORS

The following information is adopted policy as of this date.

Date: August 25, 2006. Second notice August 13, 2007

Subject: Water and electric required on new construction jobsites

Metered potable water shall be available at the building site prior to any vertical construction.

Electrical service shall be operational at the building site, where electrical service is available, prior to the start of any tie beam or framing.

No inspections shall be made and a stop work order will be issued for the construction site if the appropriate water and electrical services are not in place.

We strive to make Marco Island a clean and safe place to live and work. Please do your part.

Thank you,

Robert Mahar
Building Official
